#### **Archdiocese of Newark Catholic Schools**

### **Curriculum Mapping**

Curriculum mapping is a process that helps schools and districts/ dioceses determine the "agreed-upon" learning for all students. Curriculum mapping was undertaken in the Archdiocese of Newark in order to ensure that a consistent, clearly articulated curriculum infused with Gospel values is being provided to all students in our schools. The curriculum maps for the Catholic schools of the Archdiocese of Newark identify the content to be taught and skills to be mastered at each grade level.

The Archdiocesan curriculum maps are developed through a collaborative process which involves individual teacher contributions, small group sessions and larger group meetings. Relevant educational standards including those proposed by content area experts, the New Jersey Core Curriculum Content Standards, and the Common Core State Standards are used as a resource in the curriculum mapping process. The resulting consensus maps reflect the collective thinking of classroom teachers based on their observation of student learning and their knowledge of educational practice and research. The Archdiocesan curriculum maps include teacher generated ideas for the infusion of Gospel values and faith connection activities.

While the curriculum maps clearly articulate the expected learning for all students, individual teachers have the flexibility to teach the content and skills in their own manner by:

- utilizing their own particular strengths and teaching style
- addressing the varying learning needs of their students
- determining the order in which the content and skills are presented within a marking period
- including additional content and skills once students have met the learning expectations identified in the curriculum map

Administrators at all levels will maintain the responsibility to ensure that teachers are following the curriculum maps and that appropriate teaching is being conducted. This will be done through a combination of classroom observations, faculty meetings, professional development opportunities and teacher evaluations, as well as by using various measurement tools, including formative and summative assessments. The Archdiocesan curriculum maps will help ensure the academic excellence that is integral to the mission of our Catholic schools and will provide educators and parents with a clear understanding of the learning expectations at each grade level.

#### **English Language Arts**

Each of the curriculum maps for English Language Arts in kindergarten through 8<sup>th</sup> grade is divided into the five strands that compose the English Language Arts curriculum-Reading, Writing, Language, Speaking & Listening, and Handwriting. Although the curriculum maps are arranged by strands for organizational purposes, instruction in English Language Arts utilizes an approach that integrates the various strands. Content is repeated across grade levels, reflecting the spiraling nature of the English Language Arts curriculum. Spiraling allows students to deepen and expand their understanding of key content as required skills become increasingly sophisticated and complex.

July 2015
