Uniquely structured skills-building activities are incorporated in combination with fun games. This is done through age-appropriate training focused on creative, individual techniques, in a motivating and positive-reinforcing environment. Your child will learn:

1. Individual techniques (receiving, juggling, dribbling, passing) through fun games
2. Teamwork & group awareness
3. Physical development & weight control
4. Discipline, concentration & positive thinking

The most advanced players will be invited to participate in local, regional and national competitions with BSM Academy Teams. Furthermore, through BSM Player Agency, elite players will be exposed to college team, professional club, and national team coaches, not only in the USA, but worldwide.
