

Dear almost Third Graders,

I am looking forward to working with you in September! Here is your summer work, that will be due on the first day of school. Attached you will find a book list, report sheets and a Math assignment. I've also attached a Reading survey for you to fill out and bring back as well. Have a wonderful summer!!

Summer Reading list

- "Where's Halomi?" By Julie Kim
- "Your Name is a Song" By Jamilah Thompkins-Bigelow
- "Astronaut Annie" By Suzanne Slade
- "Astrid and Apollo and the Starry Campout" By V.T. Bidania and Dara Lashia Lee
- "A Different Pond" By Bao Phi and Thi Bui
- "Undefeated" By Kwame Alexander Kadir Nelson
- "Fish for Jimmy" By Katie Yamasaki
- "Malala" My Story of Standing up for Girls' Rights" By Malala Yousafzai
- "Buffalo Bird Girl: A Hidatsa Story" By S.D. Nelson
- "A Bowl full of Peace" By Carin Stelson
- "The Book Itch" By Vaunda Micheaux Nelson

Sincerely,
Mrs. Hulse

Name: _____

Title: _____
Author: _____

Setting

Where: _____
When: _____

Characters

Main Characters: _____

Other Characters: _____

Main Problem

Solution to the Main Problem

Name: _____

Date: _____

Book Report: Fiction

title: _____

author: _____

This story was _____, number of pages: _____
(easy, just right, hard)

Describe what happened in the beginning of the story.

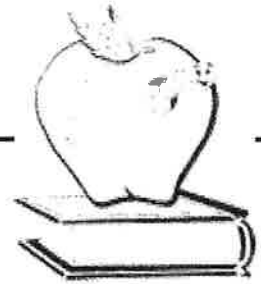

Describe what happened in the middle of the story.

Describe what happened at the end of the story.

Did you like this book? Tell why or why not. _____

Name: _____

Reading Survey

What is your favorite book? Why do you like it?

What kinds of books do you most like to read?

Where do you usually get books to read? (examples: school, bookshelf at home, library)

Complete this sentence: *I think reading is...*

Complete this sentence: *If I could read anything I wanted to, I would read a book about....*

When you're reading a book and you see a word you don't know, what do you do?

Would you rather read a book alone or have someone read a book to you?

Do you think you're a good reader? Why or why not?

Name _____ Date _____

Give the best answer for each question.

1. Compare. Write $<$, $=$, or $>$.

$$51 \bigcirc 39 \quad 78 \bigcirc 87$$

2. Subtract.

Regroup where needed.

	tens	ones
-	4	6
	1	9

3. Write the time in two ways.

_____ minutes after _____

4. Compare. Write $<$, $=$, or $>$.

$$744 \bigcirc 754$$

5. Add. Regroup as needed.

$$\begin{array}{r} 23 \\ 54 \\ + 11 \\ \hline \end{array}$$

6. Subtract.

Regroup where needed.

	tens	ones
-	6	5
	2	9

7. Subtract.

Regroup where needed.

$$\begin{array}{r} 516 \\ - 319 \\ \hline \end{array}$$

8. Fill in the missing numbers in the pattern.
Count forward by 10s.

30, 40, _____, 60, _____, _____

9. Use a centimeter ruler to measure the length of the orange slice.

The orange slice is about _____ centimeters long.

10. Simon's table is 36 inches long. Shane measures Simon's table with a yardstick. Will it take more, fewer, or the same number of yards as inches to measure Simon's table?

- more yards
 fewer yards
 the same number of yards

11. Ali splits a sandwich into four equal shares. Jamal splits a same-sized sandwich into four equal shares a different way. Are their shares the same size?

- yes no

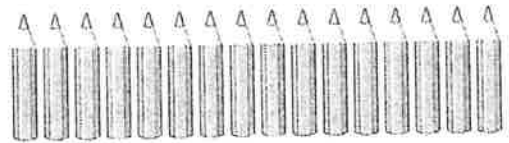

12. There are 234 cars in a parking lot. There are 271 cars in another parking lot. How many cars in all are in both parking lots?

There are _____ cars in all.

13. Write two different addition equations for the array.

14. Count the pencils.
Write the number as the sum
of two equal addends.

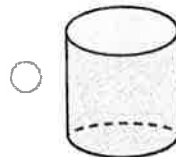

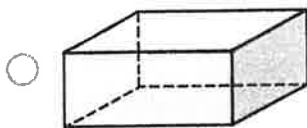

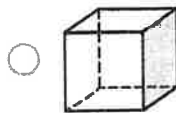

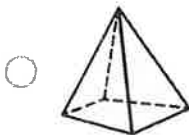

_____ + _____ = _____

Is the number even or odd?

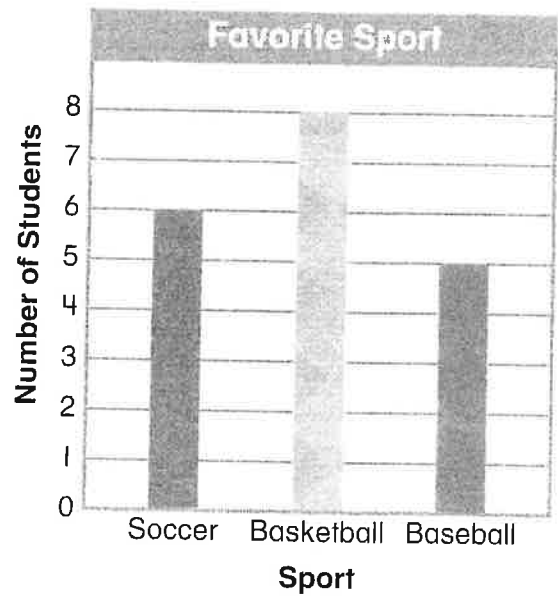

The number is _____.

15. Which shape has 6 square faces?

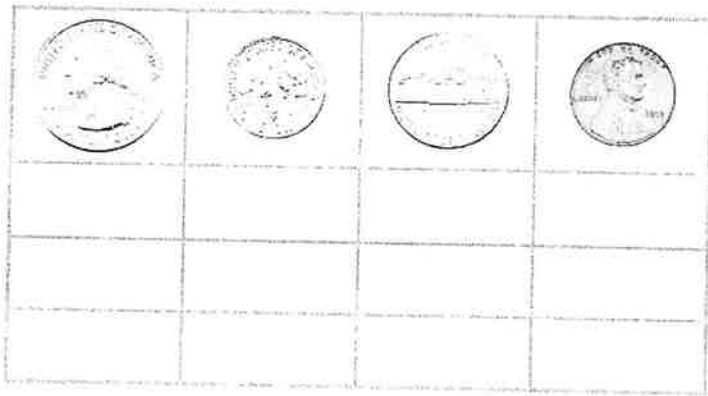

16. Donna asked students in her class about their favorite sport. Donna showed the data in a bar graph. How many students voted for soccer or baseball?

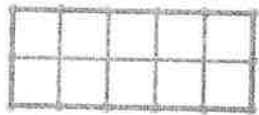

_____ students voted for soccer or baseball.

17. Show three ways to make 70¢.

18. Circle the rectangle that shows exactly 10 same-size squares.

19. Estimate the length of the pencil in inches. Then use an inch ruler to measure the length.

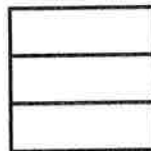

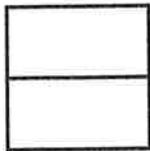

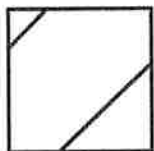

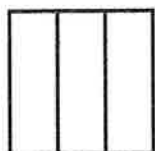

Estimate: about _____ inches

Measure: about _____ inches

20. Malia and Sara each have 6 square tiles. They use all their tiles to make a rectangle. Draw an array to show one way Malia and Sara could place their tiles.

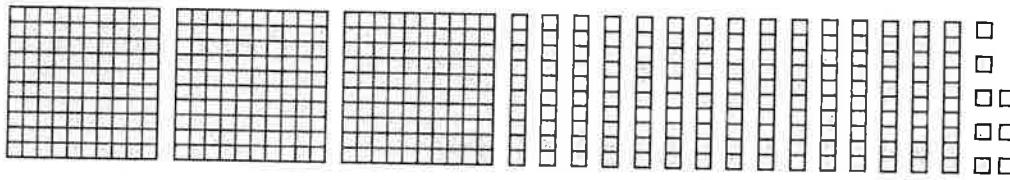

21. Circle the square that shows 2 halves.
Cross out the squares that show 3 thirds.

22. Matt wants to draw two polygons that have a total of 10 angles. What polygons could Matt draw? Choose **all** that apply.

- a rectangle and a hexagon two squares
 two pentagons a triangle and a rectangle

23. Group tens to make hundreds.

Complete each sentence.

The number is _____.

The number name is _____.

24. A box has 152 paper clips.
A teacher uses 137 of the paper clips.

Part A

How many paper clips are left in the box?

There are _____ paper clips left.

Part B

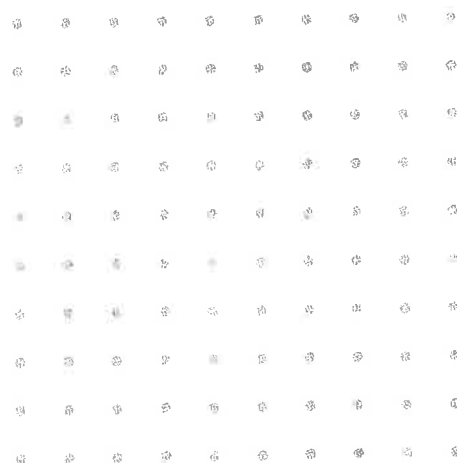

Add to check your answer.

_____ + _____ = _____

25. Julianne sees a sign near her house. The sign is a polygon with one less side than a pentagon.

Part A

Draw an example of the shape of the sign.

**Part B**

What type of shape is the sign?

- The sign is a triangle. The sign is a quadrilateral.
- The sign is a pentagon. The sign is a hexagon.

26. Adriana writes the number 639. She says the value of the 9 is greater than the value of the 6 because 9 is greater than 6.

Part A

Is Adriana correct?

- Adriana is correct.
- Adriana is not correct.

Part B

Explain your answer.

27. Jack adds 359 and 184.

$$\begin{array}{r} 359 \\ + 184 \\ \hline 433 \end{array}$$

Part A

What are Jack's mistakes? Explain your answer.

Part B

Add to show the correct sum.

$$\begin{array}{r} 359 \\ + 184 \\ \hline \end{array}$$

28. Rob earns 10¢ for every 15 minutes he spends doing chores. Rob starts doing chores at 11:00 A.M. He stops to eat lunch at 12:15 P.M. Then he does more chores from 1:00 P.M. to 1:45 P.M.

Part A

How long does Rob spend doing chores?

Rob spends _____ hours and _____ minutes doing chores.

Part B

How much does Rob earn?

Rob earns _____ ¢.

29. Misha counts the coins in her coin jar. She keeps track of the number of each type of coin in the tally chart.

Coins in Coin Jar	
Coin	Tally
Quarter	I
Dime	II
Nickel	
Penny	IIII

Part A

Use the tally chart to make a picture graph.

Coins in Coin Jar	
Quarter	
Dime	
Nickel	
Penny	
Key: Each _____ stands for 1 coin.	

Part B

Misha trades some of her coins for 1 one-dollar bill. What is one way Misha can make one dollar?

- _____ quarters
- _____ dimes
- _____ nickels
- _____ pennies

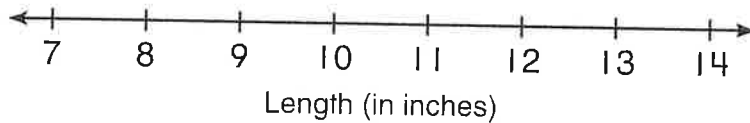

30. Petra's class measured the lengths of books in the classroom using an inch ruler. Petra recorded the measurements in a tally chart.

Book Lengths	
Length (in inches)	Tally
7	
8	
10	
11	
14	

Part A

Make a line plot using Petra's data.

Book Lengths

Part B

Make a bar graph using Petra's data.
